Build-a-Table Example

Example: Create a table that contains data on full-time employees and full-time pay for local police employees in California in 2007.

1. Select the radio button next to "Geography" and select "California" from the drop-down menu

2. Select "Next"

3. Select "2007" in the "Year" category

4. Select "Full-time Employees" and "Full-time Pay" in the "Variables" category

5. Select "All Local" in the "Level of Government" category

6. Select "Police Protection Total", "Police Officers Only" and "Other Police Employees" from the "Government Function" category

Year

2002	Add All >>	2007
1997	Add >	
	< Remove	
	<< Remove All	

Variables

Part-Time Employees	Add All >>	Full-Time Employees
Part-Time Pay	Add >	Full-Time Pay
Total Employees	< Remove	
Total Pay	<< Remove All	
Full-Time Equivalent		

Level of Government

State and All Local	Add All >>	All Local
State	Add >	
	< Remove	
	<< Remove All	

Government Function

Total	Add All >>	Police Protection Total
Education Total	Add >	Police Officers Only
Higher Education Instructional Employees	< Remove	Other Police Employees
All Other Higher Education	<< Remove All	
Elementary and Secondary Instructional Employees		
All Other Elementary and Secondary Education		

7. Select "Submit"

8. The above steps will give you the following table

California Government Employment and Payroll Data

By Level of Government and By Government Function: 2007
SOURCE: This table was user generated from the Census Bureau's Build-a-Table tool with data from the Census of Government Employment.
For information about the data's sampling error, nonsampling error, and definitions, select the appropriate link.
Note: Data is in whole numbers.

| | | 2007 | |
	Function	Full-Time Employees	Full-Time Pay
All Local	Police Protection Total	89,208	$620,362,978
	Police Officers Only	62,212	$482,313,498
	Other Police Employees	26,996	$138,049,480
